Practice Domain	Competency	Critical Deficiencies	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
PATIENT CARE (PC1)	This resident is not able to perform an efficient and accurate initial history and physical for patients admitted to the hospital.	This resident performs a focused, efficient, and accurate initial history and physical of a full spectrum of patients admitted to the hospital, including critically-ill patients.	This resident accurately diagnoses <u>many</u> "broad" surgical conditions in the SCORE curriculum and initiates appropriate management for <u>some</u> common, "broad" conditions. This resident can develop a diagnostic plan and implement initial care for patients seen in the Emergency Department (ED).	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
	Comments:					Not Yet Assessable <input type="checkbox"/>
PATIENT CARE (PC2)	This resident is unable to recognize or manage common post-operative problems such as fever, hypotension, hypoxia, confusion, and oliguria, with the assistance of senior residents or staff members who are physically present.	This resident recognizes and manages common post-operative problems such as fever, hypotension, hypoxia, confusion, and oliguria with the assistance of senior residents or staff members who are physically present.	This resident recognizes and manages common post-operative problems such as fever, hypotension, hypoxia, confusion, and oliguria with the assistance of senior residents or staff members who are physically present.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>

Practice Domain	Competency	Critical Deficiencies	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
PATIENT CARE (PC3)		This resident lacks basic surgical skills such as airway management, knot tying, simple suturing, suture removal, use of Doppler ultrasound, administration of local anesthetic, universal precautions, and aseptic technique, and is unable to reliably perform basic procedures, including venipuncture, arterial puncture, incision and drainage, minor skin excisions, placement of an IV, nasogastric tube, or urinary catheter.	This resident has basic surgical skills such as airway management, knot tying, simple suturing, suture removal, use of Doppler ultrasound, administration of local anesthetic, universal precautions, and aseptic technique, and is able to reliably perform basic procedures, including venipuncture, arterial puncture, incision and drainage, minor skin excisions and placement of an IV, nasogastric tube, or urinary catheter. This resident can perform basic operative steps in "essential-common" operations/procedures, of the SCORE curriculum.	This resident has respect for tissue, and is developing skill in instrument handling. This resident moves through portions of common operations without coaching and makes straightforward intra-operative decisions. This resident performs some of the "essential" operations in the SCORE curriculum with minimal assistance.	This resident demonstrates proficiency in the handling of most instruments and exhibits efficiency of motion during procedures. This resident moves through the steps of most operations without much coaching and is making intra-operative decisions. This resident performs <i>many</i> of the "essential" operations and is beginning to gain experience in the "complex" operations.	This resident demonstrates proficiency in use of instruments and equipment required for "essential" operations, guides the conduct of most operations and makes independent intra-operative decisions. This resident can perform <i>all</i> of the "essential" operations and has significant experience in the "complex" operations.

Version 7/29/13

Practice Domain	Competency	Critical Deficiencies	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
MEDICAL KNOWLEDGE (MK1)	This resident does not have basic knowledge about common surgical conditions to which a medical student would be exposed in clerkship.	This resident has a basic understanding of the symptoms, signs, and treatments of the "broad" diseases in the SCORE curriculum and has basic knowledge about common surgical conditions to which a medical student would be exposed in clerkship.	This resident has basic knowledge about many of the "broad" diseases in the SCORE curriculum and can make a diagnosis and recommend appropriate initial management.	This resident has significant knowledge about many "broad" diseases in the SCORE curriculum and a basic knowledge of the "focused" diseases in the SCORE curriculum, and can make a diagnosis and initiate appropriate initial management.	This resident has a significant knowledge of the operative steps, peri-operative care, and post-operative complications for most of the "essential" operations in the SCORE curriculum and a basic knowledge of some of the "complex" operations.	This resident has a comprehensive knowledge of the varying patterns of presentation and alternative and adjuvant treatments for "broad" diseases in the SCORE curriculum and can make the diagnosis and provide initial care for the "focused" diseases in the SCORE curriculum.
MEDICAL KNOWLEDGE (MK2)	This resident does not have basic knowledge about the common, "essential" operations to which a medical student would be exposed in clerkship.	This resident has a basic knowledge of the "essential-common" surgical operations in the SCORE curriculum to which a medical student would be exposed in clerkship.

SYSTEMS-BASED PRACTICE(SBP)	This resident does not have a basic understanding of the resources available for coordinating patient care, including social workers, visiting nurses, and physical and occupational therapists.	This resident has a basic understanding of the resources available for coordinating patient care, including social workers, visiting nurses, and physical and occupational therapists.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> This resident is able to efficiently arrange disposition planning for his or her patients and takes responsibility for preparing all materials necessary for discharge or transfer of his or her patients.	
		Comments:					
SYSTEMS-BASED PRACTICE (SBP2)	This resident does not demonstrate evidence that he or she considers how hospital and health care systems impact his or her practice.	This resident does not demonstrate awareness of variation in practice within or across health care systems.	This resident has basic knowledge of how health systems operate.	This resident understands how patient care is provided in his or her system and recognizes certain specific system failures that can affect patient care.	This resident makes suggestions for changes in the health care system that may improve patient care.	This resident participates in work groups or performance improvement teams designed to reduce errors and improve health outcomes.	
		Comments:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> This resident reports problems with technology (e.g., devices and automated systems) or processes that could produce medical errors.	
		Comments:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> This resident uses appropriate use of standardized approaches to care and participates in creating such protocols of care.

Practice Domain	Competency	Critical Deficiencies	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
		This resident displays disrespectful or resentful behaviors when asked to evaluate a patient or participate in a care conference with other members of the health care team.	This resident willingly exchanges patient information with team members. This resident responds politely and promptly to requests for consults and care coordination activities. This resident performs face-to-face hand-offs.	This resident exhibits behaviors that invite information sharing with health care team members (e.g., respect, approachability, active listening). This resident performs hand-off best practices (e.g., uses multiple forms of information transfer, confirms receipt of information, invites 2 questions).	This resident discusses care plans with the members of the health care team and keeps them up to date on patient statuses and care plan changes. This resident delivers timely, complete, and well organized information to referring physicians and to providers of follow-up care at the time of patient care transitions.	This resident assumes overall leadership of a health care team responsible for his or her patients, while at the same time seeking and valuing input from the members of the team. This resident negotiates and manages conflict among care providers. This resident takes responsibility for ensuring that clear hand-offs are given at transitions of care.

		This resident does not communicate effectively with patients, hospital staff members, and/or the senior surgeon in the operating room.	This resident communicates basic facts effectively with patients, hospital staff members, and the senior surgeon in the operating room.	This resident effectively describes various aspects of the procedure and peri-operative care to the patient and his or her family and other operating room team members.	This resident anticipates logistical issues regarding the procedure and engages members of the operating team to solve problems.	This resident is capable of leadership when unexpected events occur in the operating room and is able to communicate effectively with the family when unexpected events occur in the operating room.
			This resident understands the necessary elements of informed consent for procedures.	This resident leads a pre-operative "time out". This resident performs clear informed consent discussion for basic procedures.	This resident performs clear informed consent discussion for complex procedures.
